

INFO 5206 - Information Retrieval Design

3 hours

Study of design considerations in computer-based information retrieval systems, including conventional inverted file systems using Boolean logic and automatically indexed vector-oriented systems. Evaluation of information systems in the light of user and system criteria.

Prerequisite(s): [INFO 5200](#) or consent of department.

Course specific fees (in addition to tuition and mandatory):

Academic (AF) per hour: \$13.80
